The total number of reported fires increased marginally to 2071 in 1988 from 2033 in 1987. The increased dollar loss was recorded at $18,822,436 with an additional uninsured loss of $548,950 for a total property loss of $19,371,386 in 1988.

Table XI Statement of Injuries and Fatalities for New Brunswick during the reporting period shows 11 men, 7 women and 5 children perished in fires and an additional 30 civilians sustained injuries from fire. Additionally 11 firefighters sustained injuries in the performance of their duties.

The figure of 23 fatalities reflects the New Brunswick 10-year average of 23, however the Fire Death Rate based on the number of fatalities per 100,000 population remains high at 3.22 while the national rate is 1.92.

In conclusion Sir, I wish to express sincere thanks for the support and co-operation that has been received from the government departments, insurance companies, insurance adjusters, Insurance Crime Prevention Bureau, Insurance Bureau of Canada, Royal Canadian Mountain Police and all the other police and fire departments, with whom we work.

A special thanks is extended to all members of the staff of the Office of the Fire Marshal for the diligent and hard work they have given during the past year.

I have the honour to be
Sir,
Your obedient servant

Medley Carr,

*Le nombre total d'incendies signalés a augmenté de façon marginale, passsant de 2 033 en 1987 à 2071 en 1988. La perte est évaluée à un montant de 18 822 436 $ auquel s'ajoute une perte non assurée de 548 950$ pour une perte matérielle totale de 19 371 386 $ en 1988.*

*D'après le Tableau XI - Relevé des blessures et des décès au Nouveau-Brunswick, pour la période visée par le rapport, onze hommes, sept femmes et cinq enfants ont péri dans des incendies et 30 personnes ont subi des blessures. Onze pompiers ont aussi été blessés dans l'exercice de leur fonctions.*

*Les 23 décès attribuables à des incendies reflètent la moyenne annuelle du Nouveau-Brunswick pour 10 ans. Le taux de décès provoqués par des incendies basé sur le nombre de décès par 100 000 habitants demeure élevé; il est de 3,33 tandis que le taux national se situe à 1,92.*

*Enfin, j'aimerais remercier sincèrement les ministères du gouvernement, les compagnies d'assurance, les experts en assurance, le Service anti-crime des assureurs, le Bureau d'assurance du Canada, la Gendarmerie royale du Canada, ainsi que tous les services de police et d'incendie avec qui nous travaillons, de leur appui et de leur collaboration.*
